Subject: City Council Candidate Request
Date: Thursday, August 28, 2014 10:50:00 AM

Dear Mr. Jacobson,

This email is in response to your recent question regarding water fluoridation.

On behalf of the City of Austin Water Utility, we have reviewed our records and identified the following information responsive to your question:

“What is the name of the Medical Director that signed the prescription to medicate 850,000 residents of Austin?”

Response: The decision to fluoridate the water was based on Council Resolutions: 720817-11, in support of two public referendums supporting water fluoridation held in 1972, and 20111215-011, in December 2011, to continue water fluoridation. The Austin Travis County Health and Human Services Department has supported and recommended water fluoridation. The Medical Director of Austin Travis County Health and Human Services is Philip Huang, M.D.

Please let us know if you need anything further. Thank you.

Suzanne Gilchrist
